MongoDb

Express

ReactJs

Nodejs

Nextjs

GitHub

MUI

TailwindCSS

Postman

Sass

## EXPERIENCE

07/2023 - 08/2023

New Delhi

- Full Stack Developer Intern  
**Samanvay Governance**
  - Collaborated closely with the frontend team to ensure a clean and well-organized user experience for the organization's intranet.
  - Contributed to a four-person backend development team at the project's outset.
  - Leveraged **Node.js, Express, and MongoDB** for **database management**.
  - Utilized **Postman** for testing and **API development**.

10/2023 - Present

Pune

- Software Developer Intern  
**Intertwine Technologies**
  - Contributed significantly to the development of a comprehensive **customer feedback system**.
  - Actively engaged in the creation of both **referral and NPS** functionalities.
  - Demonstrated proficiency in crafting aesthetically pleasing and intuitive UI using **React, Router DOM, and Context API**.
  - Engineered applications with advanced features like sophisticated **filtering** and seamless **pagination** to elevate the overall user experience.

## PROJECTS

### ArcTik: Streamlined Ticketing System

🌐 <https://next-arctik.vercel.app/>

- Ticketing system built with Next.js; employs **Typescript, Shadcn, Stripe,** and **MongoDB**.
- Stripe used for safe purchase transactions.
- Real-time updates enabled through **webhook** implementation.
- Stylish and responsive design achieved with **TailwindCSS**.

### Next.js Blog Application

🌐 <https://firstnext-blog.vercel.app/>

- **Blog** application developed with Next.js, facilitating article **creation, viewing, editing, and deletion**.
- Secure **Google login** integration using **next-auth**.
- Incorporation of various components while maintaining adherence to top **Next.js development standards**.
